Ramesh Kannan S
Full Stack Developer

I am a Full Stack Developer on websites and mobile applications, with 2+ years of part-time work experience in the development domain. My objective is to help companies application that will be more secure and sustainable and will be able to work for years. It is not only sustainable, but it is also able to meet the needs of clients all around the world.

I am looking forward to working in an organisation where I can contribute my creative methodologies and out-of-the-box thinking and be a team player. I have good experience in problem-solving and project development. I am always ready to support and mentor people in the best way I can.
